Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/11/2008 has been entered.

Allowable Subject Matter

Claims 23-26, 28-33, 35, 37 and 38 are allowed.

The following is an examiner's statement of reasons for allowance: All of the above claims are allowable over the cited prior art at least because none of the cited prior art shows or fairly suggests clamping the annular ring in such a manner so that the ring applies a substantially uniform compressive load against the flange irrespective of the temperature of the clamping assembly as required by each of the independent claims 23 and 33. The closest cited prior art, Nedic, employs a clamping assembly in which the applied load varies with the temperature of the assembly, as described in applicant's arguments filed on 1/11/2008 for example.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (571) 272-1243. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (571) 272-1244. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
